

Product specs for Antenna Research Associates RAM-110/A

Product Description:

Antenna Research Associates RAM-110/A Antenna, Monopole Whip: 100MHz (Stand alone)

Type: Active
Mtd. On Tripod with 1/4-20 Stud
As Per MIL-STD285 NSA65-6
Overload: 0.5V/m
Power Supply: Internal Chargea

Performance Characteristics of the RAM-110/A

Form Factor	Benchtop
Type	Monopole Whip
Application	Receive
Minimum Frequency	100 Hz
Maximum Frequency	100 MHz
Impedance	50 Ohm
Polarization	No
Connector type (main signal)	BNC(f)

Programmability/Connectivity of the RAM-110/A

User Interface Proprietary

RAM-110/A Compliance

CE Compliance Not on file
UL Compliance Not compliant

RAM-110/A Power Requirements

Input Power Not required

RAM-110/A Physical Dimensions

- Width: 0
- Height: 990.6 mm (38.99 in)
- Length: (N/A)
- Weight: 2.27 kg (5 lb)
